

February 10, 2020

Kun Suo, Ph. D., Assistant Professor, Department of Computer Science
Yong Shi, Ph. D., Associate Professor, Department of Computer Science

Dear Drs. Suo and Shi:

The Institute for Cybersecurity Workforce Development's SunTrust Grant Fellow Application Review Committee is pleased to fund your proposal "Building Containerized Services with Security Assurance in the Edge Infrastructure" for \$9,000 and name you as SunTrust Faculty Fellows. Your award has been assigned number ST20-03 and will be funded as specified in the budget section of your proposal. Please contact your department chair to coordinate distribution of the funds.

The SunTrust Fellow program emphasizes realized outputs. so you will be expected to provide detailed summaries of progress toward completion and any publications that result from this project on an annual basis. You will also be expected update the status of your project completion, project outcomes and funding use when applying for future awards.

You may be expected to report some level of findings at next year's SunTrust kick off meeting. Further, it is expected that you will submit a paper summarizing your preliminary findings to the KSU Conference on Cybersecurity Education, Research and Practice next October. Finally, you are asked to acknowledge this support in any resulting working papers and publications.

To acknowledge your receipt of this notification, please sign below, scan and return to me by email at infosec@kennesaw.edu. Once the signed document is on file, you may begin spending against your grant funds.

Best of luck in your project. I look forwarding to reading your results.

A handwritten signature in black ink, appearing to read 'M. E. Whitman'.

Michael E. Whitman, Ph.D., CISM, CISSP
Executive Director, ICWD

We accept this grant funding and acknowledge our responsibilities and expectations.

Kun Suo, Ph. D.,
Assistant Professor, Department of Computer Science
